

# Pilot Programs and Partnership Cases

---

---

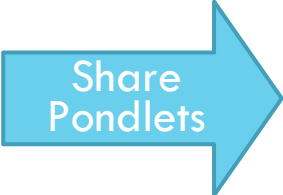

- Case 1 – Flipped Classroom with Utah Dual Language Immersion
- Case 2 – STARTALK First Online Summer Program
- Case 3 – Mandarin Content Creation with The Language Flagship

# Case 1 – Flipped Classroom with Utah Dual Language Immersion

- By using Ponddy platform, teachers can instantly transform authentic material into a ready-to-teach lesson plan (the pondlet) and share it with students
- Students can preview the shared lesson plan before class with K-W-L chart filled out to better prepare for class knowing exactly what part of content they need help from the teacher
- Students get targeted help from the teacher in class and share their own learning outcome with peers to improve retention
- This Flipped Classroom approach allows teachers to group students into similar levels and address their needs with ease

# Flipped Classroom – Utah DLI Example

**Preview** Pondlet on Ponddy Reader prior to class  
**Record** pinyin and words they don't know

Create/Choose  
Pondlets  
Content  
Resources  
Activities

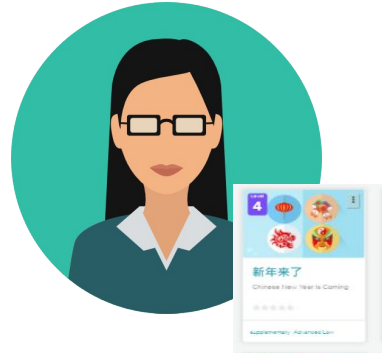

K-W-L Chart 		
Topic: _____		
What I Know	What I Want to Know	What I Learned

Use K-W-L charts to review what they learned before and during their pre-reading activity

Pair share or small group discussions on the holistic meaning of each paragraph

Use vocabulary and grammar learned from pre-reading in discussion and summary writing

Review and Feedback

Presentation & Peer Discussion

Semester 2

# Case 2 – STARTALK First Online Summer Program

- The first online summer program by STARTALK that covers the **FOUR skills**
- Ponddy created the program from scratch and provided online instructions
- Ponddy content team created the theme-based curriculum and instruction sets that align with ACTFL can-do statements
- Students use Ponddy learning platform to create content and trace their learning outcomes.
- All Ponddy Tutors instructors are certified in teaching Chinese as a foreign language
- The pilot is tested and trusted by students and parents from 34 states nationwide
- Check out the [STARTALK Pre-AP Summer Program Curriculum](#)

# Case 3 – Content Creation with The Language Flagship

- Ponddy has created curriculum in collaboration with the Language Flagship Technology Innovation Center for its Chinese Flagship Program
- The Language Flagship Pondlet Series helps elite students in their pre-capstone year in learning field-specific content in Chinese, such as in biology, chemistry, economics, international relations, etc.
- After learning the content provided, students use Ponddy learning platform to create their own content and share with peers so students can also learn from each other
- Check out [the Language Flagship Series Pondlets](#)
